BACK TO THE WOODS

*If you are reading this, then it has happened...*

*We have been informed by the International Pizza Council that there is a threat to the future existence of pizza! As you know, we are one of the biggest consumers of pizza in the world, and we are worried for our safety.*

*We have recently noticed several strange people following us over the last couple of months, and we have tried our best to keep notes of these weird events. In order to protect ourselves, we have hidden the notes in several strange locations. Hopefully, you can follow our trail and use these notes to work out who is behind this! We must protect pizza at all costs!*

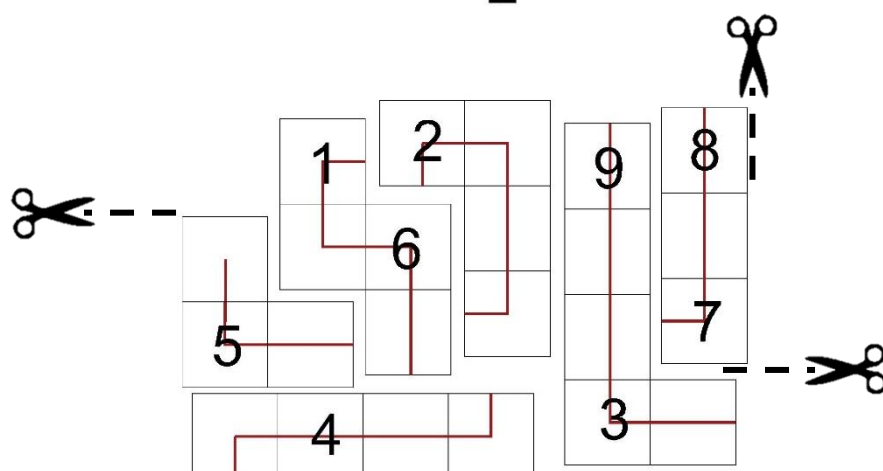

*We have made the clues so fiendish that we know that only you can solve them, certainly our enemies won't be able to! You have already proven yourself capable by getting this far.*

*You are our only hope now...*

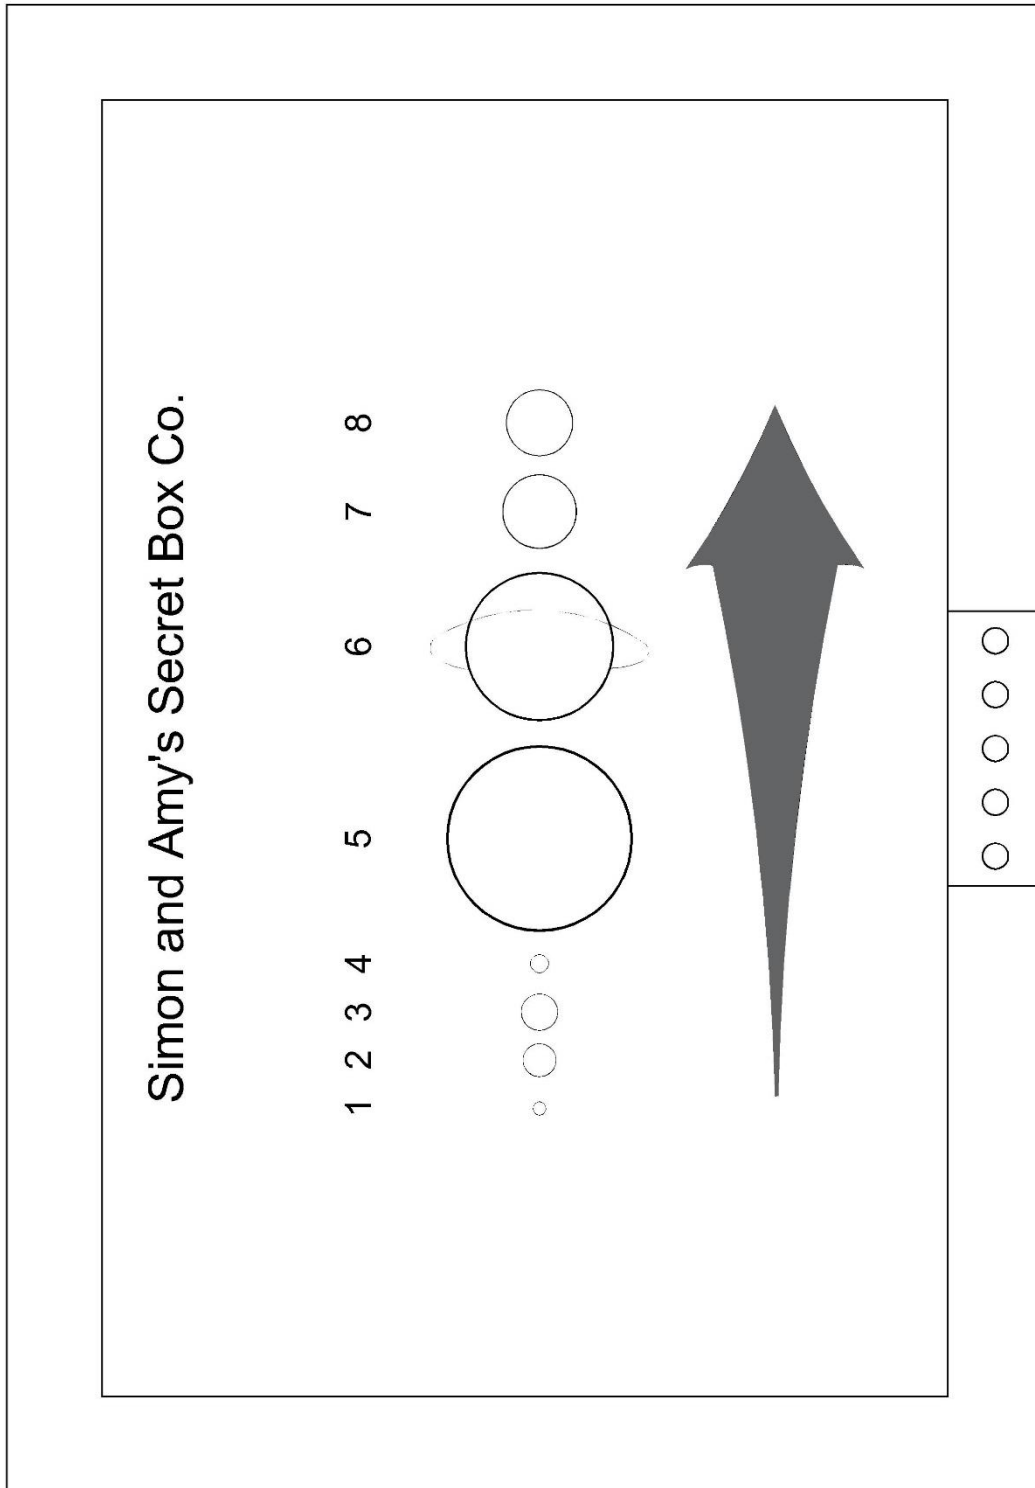

*We have hidden the next clue in the woods. But be careful! We have seen people hiding bear traps and felling trees to stop others interfering. We have kept track of where they did this, make sure you follow the correct path to the site!*

## BACK TO THE WOODS

THE BURIED TREASURE

END OF EPISODE ONE

*Craig,*

*We have to go to Italy, there is not enough pizza left in the UK at the moment. We must go to its source!*

*We have started receiving messages from the evil so-an-so who is attacking our beloved foodstuff. We have left one here for you, maybe it will help you to work out who it is? You must follow us soon!*

*We have left some funds here so you can help us, and we shall try to get another message to you when we have more information to bring this monster to justice!*
